

OmniSupport Billing & Invoicing Policy

Document ID: POL-BILL-001 | Version: 2.1 | Section: Billing and Payments

Last Updated: June 15, 2026

1. Subscription Billing Cycle

All paid plans (Pro, Enterprise) are billed on a recurring basis, either monthly or annually.

Monthly cycles are billed on the calendar date corresponding to the commencement of the subscription.

Annual subscriptions are billed upfront in full and renew automatically on the anniversary date.

If a payment fails, the system will automatically retry charging the card on file up to 3 times over a period of 12 days before the workspace is marked as delinquent and access is restricted.

2. Proration for Plan Upgrades and Downgrades

Plan upgrades are processed immediately. The system calculates the unused time on the current tier and applies it as a credit, billing the user only for the difference for the remainder of the cycle.

Downgrades take effect at the end of the current billing cycle. No partial refunds are provided for mid-cycle downgrades. The workspace remains on the higher tier until the end of the billing period.

3. Disputing Charges and Invoicing Errors

If you believe there is an error on your invoice (e.g., duplicate charges or incorrect seat counts), you must submit a support request under the 'Billing' category within 30 days of the invoice date.

Our billing team will review the Stripe logs and invoice records within 2 business days.

If a correction is warranted, a billing credit or direct refund will be issued.

Direct credit card refunds may take 5-10 business days to reflect in your bank account.

4. Tax Invoicing and VAT

All subscription prices are exclusive of VAT or local sales tax.

Users can input their corporate Tax ID / VAT Registration Number in Settings > Billing settings.

Once verified, the Tax ID will be printed on all future invoices, and VAT exemptions will be applied where legally applicable according to European Union or local tax regulations.
